Abhi Murali

abhiramims333@gmail.com Phone: 3439897788 LinkedIn: Abhi Murali GitHub: Abhi-MS Portfolio

Front-End Developer with expertise in React.js, HTML, CSS, and JavaScript. Proven track record of enhancing UI/UX elements for seamless user experiences. Skilled in collaborative cross-functional teamwork and proficient in design tools such as Figma and Bootstrap. Committed to delivering innovative and visually appealing web applications. Ready to contribute technical expertise and creativity to dynamic projects.

EXPERIENCE

WEB DEVELOPER   **Toronto, ON**
Reimagine Labs   October 2023 – Present

- Contributed to front-end web development for the company website, focusing on enhancing UI/UX elements to elevate user interaction and experience.
- Utilized Figma for web design, creating wireframes, mockups, and prototypes to conceptualize and iterate on website layouts, ensuring optimal user experience and interface design.
- Engineered and crafted custom GPT (Generative Pre-trained Transformer) models to meet project-specific requirements, harnessing advanced AI techniques to optimize functionality and performance for prompt-based tasks.

APP DEVELOPER   **Calgary, AB**
Cite des Rocheuses   October 2023 – December 2023

- Assisted in the development of a mobile application using the Adalo platform, serving francophone and newcomer community in Alberta.
- Resolved coding discrepancies to ensure the optimal functionality of the HTML renderer component within Adalo

REACT PHOTOGRAPHY PORTFOLIO **GitHub**   January 2024

React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, React Bootstrap
- Developed a modern, dynamic, and responsive single-page web application using React.js for a photography portfolio.
- Implemented responsive design principles using Bootstrap, React Bootstrap and CSS to ensure compatibility across various devices and screen sizes.
- Delivered a bug-free, interactive React application, showcasing proficiency in front-end technologies and problem-solving skills.

FULL STACK TO DO NODE.JS WEB APP **GitHub**   August 2023

HTML, CSS, JavaScript, Bootstrap, Node.js, express, EJS, NPM, MongoDB, Mongoose
- Developed and deployed a full-stack ToDo web application, providing users with seamless task management.
- Implemented dynamic task handling features, including addition, deletion, and completion.
- Utilized Bootstrap for enhanced visual appeal and responsiveness across devices; deployed on Render platform.

SKILLS

Front-End Development: React, HTML, CSS, JavaScript, Bootstrap, jQuery, Responsive design.
Back-End Development: Node.js, Express.js, SQL, MongoDB, RESTful API design, OAuth
Testing: Unit testing
Cloud Computing: Google Cloud Platform (GCP), Google Cloud Console
Version Control: Git, GitHub
Programming Languages: C++, Python, C, BASIC, JavaScript
Design and Collaboration Tools: Figma, Slack.

EDUCATION & CERTIFICATIONS

The Complete 2023 web development bootcamp   May 2023 – December 2023

- MERN web development, Git version control, REST API, Authentication & security, Web3, DApps, Heroku

Google IT automation with Python professional certificate   November 2022 - March 2023

- Crash course in Python, Troubleshooting and debugging techniques, Using Python to interact with the operating system, Configuration management and the Cloud, Introduction to Git and GitHub, Automating real-world tasks with Python.

Master of engineering in civil engineering (CGPA: 3.76/4.3) *Queen's university, Kingston, ON*   August 2020

Bachelor of technology, civil engineering (CGPA: 7.84/10) *NIT Calicut, India*   June 2019
